USA Industries' Metal Tapered tube plugs are a one-piece tapered design that are easily installed so you can establish a positive seal with minimal driving in just seconds. With more than 20 metals in stock, we can produce more than 5,000 plugs per day, and are happy to machine them according to your specifications.

NOTE: Always puncture the tube before installing any plug to ensure that pressure cannot build up and cause the plugs to loosen or blow out of the tube.

Be sure to ask us about our One-Rev Cutters for puncturing tubes.

Available in the following metals:

Aluminum Bronze	Alloy 20	2205 Duplex
Carbon Steel: A-36, A-105, LF2, 1018, 1200	Chrome / Moly: F-5, F-9, F-22	Stainless Steel: 304, 316, 321, 416, 17-4
Brass: 360, Naval, Admiralty	Copper-Nickel: 90 / 10, 70 / 30	Monel: 400, 405, 500
Inconel: 600, 625, 800	Hastelloy: B2, C276	Titanium

Special materials available such as Ferralium, Nitronic, Tantalum, Waspalloy, Zircalloy, Zircorium and many more.

When Ordering Specify:

- TP# based on size of your plug (see chart)
- Material of construction
- For custom plugs, provide "A" "B" & "L" dimensions
- Quantity
- Delivery Date

"<>" = replace "<>" with material of construction required - see Chart above.

WARNING: Never stand in front of an installed plug under pressure. Plugs ejected under pressure can cause serious bodily injury.
