

REQUIRED PARTS & ASSEMBLY STEPS FOR THROUGH-THE-TUBE/FAR END PLUGGING ASSEMBLY

Extension Rod

(two pieces - extension rod and compression tube)

Sequence of Through-the-Tube threading Pull Rod Assembly

1
Slide Compression Tube over Extension Rod so that Extension Rod Extends Beyond Compression Tube.

2
Place Plug Positioner over Extension Rod so the Plug Positioner Rests atop the Compression Tube.

3
Screw Far-End Plugging Adapter into the Threaded End of the Extension Rod.

4
Screw Far-End Reverse Threaded Stud into Far-End Plugging Adapter.

5
Screw Plug onto the Far-End Reverse Threaded Stud.

6
Rest Base of the Plug Ring onto the top of the Plug Positioner.
