

CUSTOM PIPE PLUG ENGINEERED ACCESSORIES

Boost efficiency with dynamic technologies that yield dramatic time, manpower and cost savings!

EZ Turn Hydraulic Actuator Cylinders™

Synchronous hydraulic tightening and loosening of seal expansion nuts, which in turn expands and contracts the plug seals. No manual intervention is required, equaling a dramatic time and labor cost savings to you and your project budget.

EZ Slide Heavy Duty Mounted Casters™

Casters provide fluid movement of oversized and heavy weighted isolation plug inside the pipe. Consequently, the casters require very little physical exertion to position or reposition pipe plug once seated in the pipe.

EZ Align Fit-up Clamp™

Clamp latches onto 3rd party device in order to slide the oversized and heavy weighted isolation plug into place over short and long distances.

Internally Mounted Digital Camera with Lighting

Internally mounted camera allows you perfectly locate weld-seam. There is no more guessing, or requiring you to measure short and long distances in order to seat the plug properly in place before beginning your project operation.

Ultra-wide Tri-Ply® Seals

The patented multi-durometer Tri-Ply Seal provides a larger surface coverage area over the standard seal, resulting in a greater expansion range, and eliminates seal mushrooming that happens from over torquing the seal expansion nuts.

We strive to provide our customers with exceptional USA manufacturing quality products, economically that adhere to our ISO 9001:2015 Quality Program.

For more information on USA Industries products, contact us at (713) 941-3797 or go to www.USAIindustries.com

DOUBLE BLOCK & BLEED PLUG OUTFITTED WITH ACCESSORY OPTIONS

EZ Turn Hydraulic Actuator Cylinder (x8)

Synchronous expansion and contraction of plug seals. No manual intervention required equals dramatic labor cost savings

EZ Align Fit-up Clamp (x1)

Latches to 3rd party device to slide isolation plug into place over short and long distances

EZ Slide Heavy Duty Mounted Caster (x6)

Fluid movement of isolation plug inside pipe with little physical exertion required

Internally Mounted Digital Camera

Locate weld-seam easily. No guessing or measuring required.

4" (H) High-Durometer TriPly® Seals

Larger surface coverage equals better gripping and greater expansion range
