

ONSITE INVENTORY MANAGEMENT SERVICES

USA Industries, in partnership with 3V Industrial, provides tailored inventory management solutions that optimize operations, reduce costs, and enable businesses to concentrate on their core activities—building, repairing, and maintaining their facilities. **At Venture Global's Plaquemines LNG plant in Louisiana, this managed inventory approach has proven invaluable to the project's success.** Here's how our Onsite Inventory Management Services can help you:

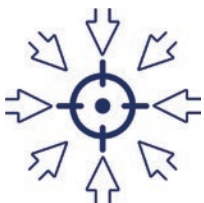

BOOSTING OPERATIONAL EFFICIENCY

- Real-time inventory tracking
- Optimization of stock levels and inventory accuracy
- Eliminate the challenges of stockouts and overstocking.

COST SAVINGS & FLEXIBILITY

- Reducing costs associated with warehousing, staffing, and technology
- Scalable solution
- Only pay for the services you use

FOCUS ON CORE BUSINESS FUNCTIONS

- Delegating responsibility to USA Industries
- Concentrate on facility maintenance during turnarounds, shutdowns, emergency repairs, and construction.

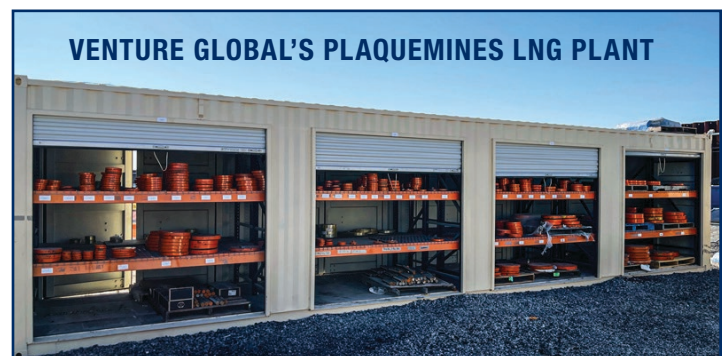

SCALABILITY FOR FUTURE GROWTH

- Start at any level and securely maintain your investment for future projects or turnarounds

REDUCE LOSS & TRACK ASSETS

- Active tagging system finds all assets in field
- Eliminate concerns of items still installed during start-up phase
