

# USA INDUSTRIES MANAGED INVENTORY SOLUTIONS

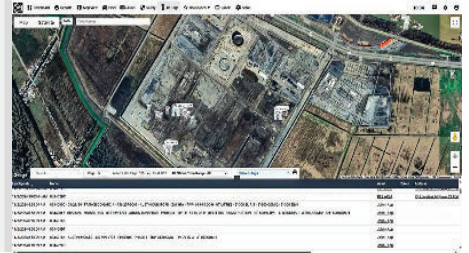

AVAILABLE 24 / 7 / 365

USA Industries delivers **TAILORED INVENTORY MANAGEMENT** that streamlines operations, lowers costs, and frees your team to focus on what matters — building, repairing, and maintaining your facility. Our partnership with 3V Industrial at Venture Global’s Plaquemines LNG plant in Louisiana has proven the value of this approach in keeping a major project on schedule. See how our Onsite Inventory Management Services can support yours below.

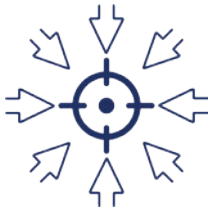

## BOOSTING OPERATIONAL EFFICIENCY

- Real-time inventory tracking
- Optimized stock levels and inventory accuracy
- Eliminated stockouts and overstocking

## COST SAVINGS & FLEXIBILITY

- Reduced warehousing, staffing, and technology costs
- Scalable solution
- Pay only for the services you use

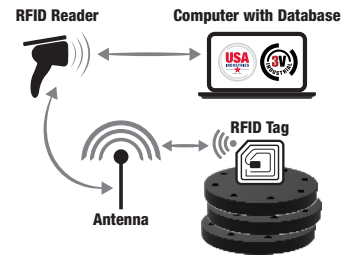

## FOCUS ON CORE BUSINESS FUNCTIONS

- Delegated responsibility to USA Industries
- Stay focused on facility maintenance during turnarounds, shutdowns, emergency repairs, and construction.

## REDUCE LOSS & TRACK ASSETS

- Active tagging system that locates all assets in the field
- Eliminated concerns of items still installed during start-up phase

## SCALABILITY FOR FUTURE GROWTH

- Start at any level and securely maintain your investment for future projects or turnarounds
