

ENVIRONMENTALLY SUPERIOR

SURES NAP PRO™

SNAP IT® TUBE PLUG
HYDRAULIC INSTALLATION TOOL

Built to install Snap It® JR & SR Engineered Tube Plugs in heat exchangers, boilers, and condensers. No shop air, pumps, hoses, or electrical connections required — delivering a cleaner, safer worksite. With no hydraulic fluids or external power, it's the environmentally superior alternative to traditional electric hydraulic units.

CORDLESS • HOSELESS • BATTERY-OPERATED

OP. FORCE	BATTERY TYPE	CHARGE TIME	PLUGS/CHARGE	TOOL WEIGHT	OP. TEMP
11.2 tons	18v LXT 4.0Ah lithium-ion	≤ 40 minutes	400 (up to)	5 lbs 2.3 kg	5-122° -15°C TO 50°C

FEATURES

- Fully self-contained system — no plant air or electrical hookup required
- Adjustable Pull Head angle for installation in tight spaces where a straight-on approach isn't possible
- Integrated pressure sensor and automatic limit stop to prevent tool damage
- Advanced digital display with Bluetooth performance data analysis via Bluetooth
- Compact design — 5 lbs. (2.3 kg) with heavy-duty grip
- Shoulder strap included

BENEFITS

- Eliminates hoses and trip hazards for safer, cleaner job sites
- Ergonomic, single-handed operation in confined spaces, remote areas, and elevated work zones
- Extended runtime with enhanced battery capacity
- Reduced operator fatigue via shoulder strap and ergonomic design
- No hydraulic fluids or external power — the environmentally superior alternative
- Long-lasting performance — engineered from premium 7075-T6 aluminum alloy, the same material used in aerospace structural components, the SureSnap PRO press foot withstands repeated high-pressure cycles

WARNING:

Never stand in front of or in line with any installed plug or tool under pressure. Plugs ejected under pressure, or sudden kickback from the release of stored elastic energy during plug installation, can cause serious bodily injury.
